

Adedamola Aderogba

Frontend Engineer — React, Next.js & Tailwind CSS

Lagos, Nigeria
adedamola@example.com
github.com/AderogbaAdedamola
adedamola.dev

Frontend developer with 3+ years of experience shipping responsive, accessible interfaces with React, Next.js and Tailwind CSS. I care about design systems, performance budgets, and the small details that turn demos into products. Comfortable owning UI architecture from component library to production.

CORE SKILLS

React Next.js Tailwind CSS JavaScript (ES6+) TypeScript HTML5 & CSS3 Git & GitHub

Accessibility (a11y) Responsive Design Figma-to-Code

SELECTED PROJECTS

Wavely Frontend

TypeScript · React

Modern frontend application built with TypeScript and React. Focused on clean component architecture and type-safe UI.

TypeScript React UI Architecture

EduConnect

JavaScript · AI Integration

Share questions via a simple link and collect AI-powered feedback on responses. Built for study groups, quizzes and discussions.

JavaScript AI APIs Forms

DevTrack

JavaScript · Dashboard

Developer-focused project management dashboard that breaks projects into tasks, tracks real-time progress and visualises performance.

React Dashboard State Management

PostVerse

JavaScript · Creative Tool

Turn scripture into styled posters. Pick a Bible verse, customise the design and export a shareable image.

Canvas/DOM Styling UX

EXPERIENCE

Frontend Developer

Freelance & Personal Projects

2023 — Present

- Built 20+ responsive interfaces with React and Tailwind CSS
- Created reusable component patterns and design tokens
- Shipped accessible forms, dashboards and landing pages

EDUCATION

Computer Science Student

University of Ibadan

In progress

Studying computer science with focus on software engineering, algorithms and practical project work.
